

REMARKS

Claims 1-84 are pending. In the Restriction Requirement, claims 1-84 were restricted into the following three groups:

- I. Claims 1-48, 58-81 and 84, drawn to an isolated human-bovine chimeric parainfluenzavirus, classified in class 435, subclass 235.1.
- II. Claims 49-57, drawn to a method of stimulating the immune system of an individual, classified in class 424, subclass 70.1.
- III. Claims 82-83, drawn to a method of making an infectious attenuated chimeric PIV, classified in class 435, subclass 70.1.

Applicants hereby elect Group I, consisting of Claims 1-48, 58-81 and 84 for prosecution at this time. This election is made with traverse, and no representations are made by this election concerning the merits of the Restriction Requirement with respect to the possible existence of multiple distinct inventions among the originally presented claims. Applicants reserve the right to pursue the subject matter of all non-elected claims in one or more related applications. Applications respectfully request allowance of all pending elected claims.

Date November 3, 2003
